FULL STACK DEVELOPER

I'm a developer with **3 years of experience** in **HTML, CSS, JavaScript, Typescript, and Go**. My background includes building applications with modern frameworks like **Angular**, as well as working with REST APIs and MVC architectures.

TECHNICAL SKILLS

Languages	:	JavaScript, Typescript, Go, HTML, CSS
Frameworks	:	Angular, Express, Node.js, Gin
Databases	:	MongoDB
Dev Tools	:	Linux, Docker, Visual Studio Code, Git, Gitlab, Github

EXPERIENCE

Fullstack Developer　　　　　　　　　　　　　September 2023 – Present
Lenovo Romania　　　　　　　　　　　　　　*Hybrid – Bucharest, Romania*

- Plan and prioritize tasks from the sprint or backlog; break features into actionable tickets
- Write and review code for **frontend** and **backend** systems
- Implement UI components with **HTML, CSS/SCSS, and JavaScript** or framework-specific patterns such as **Angular**
- Working with **MVC frameworks** to develop robust and scalable backends
- Troubleshot and fix bugs and issues in the **backend** and **frontend** to ensure smooth operation of the applications
- Collaborate with **cross-functional teams** (designers, product managers, QA) to align on requirements
- Maintain security and compliance best practices (input validation, auth, secrets handling)
- Mentor and share knowledge with developers; help onboard new team members

Frontend Developer Intern　　　　　　　　　July 2023 – September 2023
Lenovo Romania　　　　　　　　　　　　　　*Hybrid – Bucharest, Romania*

- Developed dynamic and responsive components using **Angular**
- Implemented designs from **Figma** into pixel-accurate, accessible interfaces
- Integrated frontend code with **backend APIs** and handled data fetching, state management, and error states
- Wrote and ran **unit and integration tests** for components and UI logic

Police Officer　　　　　　　　　　　　　　September 2019 – July 2023
Ministry of Internal Affairs　　　　　　　　　　　*Bucharest, Romania*

- Performed preliminary and follow-up investigations, including evidence collection, witness interviews, and report documentation
- Collaborated with other officers, specialized units, and external agencies to coordinate operations and share intelligence
- Maintained physical readiness, situational awareness, and adherence to operational protocols at all times
- Prepared detailed incident reports and documentation used for legal proceedings and case follow-ups

EDUCATION

Titu Maiorescu University　　　　　　　　　　　Bucharest, Romania
Master's Degree in Cyber Security　　　　　　　　*October 2025 – Present*

Romanian Police Academy　　　　　　　　　　　Bucharest, Romania
Bachelor's Degree in Military Science and Informatics　　*September 2019 – July 2022*

PROJECTS

HamburgerStore   *React ,CSS ,HTML5, Bootstrap, Git, Firebase*   Source Code

- Designed and developed a clean, modern, and fully responsive website using **HTML, CSS, and React**, following best practices for component structure and UI consistency
- Improved overall performance and user experience through layout optimization, efficient rendering, and lightweight asset management
- Utilized responsive design to ensure compatibility across all devices

ArtonCanvas   *Node.js, Javascript, HTML, SCSS, Bootstrap*   Source Code

- Includes a fully functional login flow with form validation and protected routes
- Implements client-side routing with parameterized routes to handle product details, user pages, and dynamic navigation
- New users can register through a dedicated form, with all account details securely stored in the database

TrimAtHome   *JavaScript, HTML, CSS, Git*   Source Code

- Applied best practices for loading speed, semantic HTML, and accessibility to ensure a fast and inclusive experience for all users
- Implemented a seamless smooth-scroll effect across the entire page, enhancing navigation flow and creating a modern, polished user experience
- Developed a fully interactive booking modal that captures user input and processes it in real time, ensuring instant feedback and smooth data handling

ProjectUploader   *React, HTML, CSS, Git*   Source Code

- Implemented a dynamic form interface that enables real-time project submissions to my portfolio.
- Integrated a POST request workflow that securely transmits project data to a Firebase backend, where entries are stored and synchronized within the portfolio database
- Designed the user interface using **Bootstrap** , ensuring a clean, responsive, and professional layout that enhances usability across devices

CERTIFICATIONS

- The Complete Web Developer: Zero to Mastery
- The Complete JavaScript Course: From Zero to Expert
- Go - The Complete Guide
- NodeJS - The Complete Guide (MVC, REST APIs, GraphQL, Deno)
- Linux Mastery: Master the Linux Command Line in 11.5 Hours
- Angular - The Complete Guide
- React - The Complete Guide (incl. Next.js, Redux)
- Build Responsive Real-World Websites with HTML and CSS
- Modern HTML and CSS From The Beginning 2.0
